ABOUT US

**WE ARE AN AMERICAN BRAND
OF ELECTRIC AND MANUAL TOOLS**

Promaker® Tools is created with an investment fund in the United States bringing together a group of experts in the construction industry and the development of new products to create an alternative brand with the same quality as the traditional ones and with great power to face to a market opportunity and position itself in the rest of the world.

Since then, this group of investors has sought to create and develop a brand sustained over time and with which they maintain the tradition and trajectory of the tools created for the hardware market.

Promaker® Tools sets out to define its quality and technology parameters that allow it to innovate as the first tool brand to lead the top sales in the hardware market.

PROMAKER THE NEW TOOL

To achieve this, Promakertools Corp. is looking for another group of specialized leaders in the market to offer their experience and leadership with more than 400 power and manual tools and accessories that they have developed in the last 8 years of activity in the main cities of the American market.

OUR PASSION DEFINES US

Our passion for technology and the possibility of offering **PROMAKER® Tools** to a market with needs for construction, repair and demanding jobs for the home and the entrepreneur of the new era positions them in the Latin American market with a long history and hardware tradition.

The solidity of Promakertools Corp., and its enthusiasm to stay hand in hand with the support needs of its clients, allows them to innovate with a service of attention and response to guarantee the operability of its electric and manual tools under certain standards and policies of differentiating guarantees.

At **PROMAKER®** we train, create and develop trust so that our electric and manual tools and accessories accompany our clients in their most demanding construction, repair and creation projects.

HAND TOOLS

PROMAKER INFINITE WARRANTY FOR HAND TOOLS

Promaker Tools Corp. Warranties its hand tools against defects in materials and workmanship work used in its manufacture.

The application of the Infinite Guarantee is for:

- Cover any type of failure that a tool may suffer during daily operation or routine that does not require great efforts for its application.
- Replace the tool as soon as possible so that the customer does not lose their purchase investment.
- The application for changing the tool must be evaluated by authorized personnel familiarized with the use of the tool.

When does the Infinite Guarantee not apply?

Not applicable if:

- The tool is used under conditions other than the purpose of its application.
- The tool presents alterations or modifications to the manufacturing design.
- The tool shows clear signs of intervention by unauthorized and/or qualified personnel.
- If the tool was stored in conditions that compromised its integrity, such as: excessive exposure to humidity, heat, or any other that affects the materials used in its manufacture.

All types of accessories linked or not are exempt from the Infinite Warranty request with a tool, such as:

- Cutting tool blades (retractable blades, reamers, etc.).
- Saw blades.
